MITTE

DESCRIPTION

Mitte is an elegant dim-out curtain fabric with a sustainable footprint. It features an embossed pattern of leaves on one side of the fabric. Mitte has a brushed steel look. The oversized leaf design gives the fabric shiny contrasts and a more natural fashion. To produce Mitte, used plastic PET bottles are collected and transformed into reusable polyester filaments. This process is significantly more energy-efficient than for virgin polyester and reduces the use of natural resources. Mitte is available in 4 inspiring colors.
