# DARKNESS

## DESCRIPTION

Darkness is an elegant intense dim-out curtain fabric with a sustainable footprint. The curtain fabric drapes very smoothly. Darkness curtain fabric is also very suitable as a lining fabric and can be used for both curtains as roman blinds. To produce Darkness, used plastic PET bottles are collected and transformed into reusable polyester filaments. This process is significantly more energy-efficient than for virgin polyester and reduces the use of natural resources. Darkness is available in 2 deep solid colors.
